Attorney for Applicant**RESPONSE TO RESTRICTION REQUIREMENT**

COMMISSIONER FOR PATENTS

P.O. Box 1450

Alexandria, Va 22313-1450

Sir:

In reply to the restriction requirement mailed May 5, 2003, please consider the
following.

Provisional Election

Applicant hereby elects, with traverse, the invention identified as Group I, comprising
claims 40 – 62 and 66.

Request for Reconsideration and Withdrawal of the Requirement

Applicant notes that elected independent claim 40 of Group I defines an invention that
includes a support module to which a plurality of enclosed room modules are attachable to and
cantilevered from the support module.

Independent claim 63 of Group II defines a method whereby a plurality of enclosed
room modules are provided for cantilevered attachment to a support module.

In comparing the foregoing inventions as claimed, applicant submits that there exists
between those claims a technical relationship involving one or more of the same or
corresponding special technical features, such as the cantilevered attachment of the room
modules to the support module. The recitation in dependent claim 64 of a particularly
preferred way of attaching a room module to a support module does not negate the special
technical features present between the inventions identified as Groups I and II.

1085-039-PWH

In view of the foregoing, applicant requests that the restriction requirement be withdrawn.

Respectfully submitted,

ipsolon llp
